

Putting It All Together

Now create your priority list for your ideal work situation. In the table below, we have prefilled general job necessities 1 to 5 for you. To add the specific needs of your career type, refer to the Job Fit Worksheet for your type. Write down the needs from that list in column A, items 6 to 10.

The last step is to look at the list in column A and reprioritize needs 1 to 10 in column B. This is necessary, as you may find that some general needs rank higher in importance for you than type-specific needs, and vice versa.
